So I got into ~~it~~ W/ these 2 Shit Stain's at UPS. I was almost finished unloading a trailer. And I had a row of irreg's on one side. These 2 ~~losers~~ greasy refried loser's fatass & assface start shit. The fucking belt stop's & I start helping assface out. I unloaded like 5 irreg's & then the belt started again. So I went back to unloading the regular package's. I ~~It~~ hear assface say "dumbass". I said "Who?" Assface ~~said~~ say's "You" & I told that loser "fuck You talking about". Assface tell's fatass "and they wonder why people get beat up". Like that fucking loser was going to do anything. So fatass & assface start ganging up on me. Fatass tell's me ~~do~~ "DO YOU~~R~~ JOB!!! I DON'T WANT TO BE OVER HERE". Assface join's right in. I go off on those 2 loser's, "DON'T FUCKING HELP ME ~~THAN~~ THEN YOU FUCKING SON OF A BITCHES, LOSER'S!! FUCK YOU!!!" Assface said "[redacted] said to unload the trailer in the next dock". As I was going down the step's I was face to face W/ fatass. I thought fist were going to fly but fatass tell's me in a soft voice "[redacted]" said to unload that trailer". I talked to [redacted], I told her from now on don't send me anymore help.

For the rest of the day I was solo. As I was finishing the last trailer they put me in air W/ fatass & assface. Assface left before I got there. Didn't want to put up W/ my shit so he took off. Fucking loser. I actually ~~end~~ ended up taking his spot. Fatass stayed out of my way. I was about to As I finished a can fatass give's me the it's over sign. I was about to leave but then I said no I'm not listening to that loser. I started helping this guy. I've been here almost 3 month's. Only once have I had a guy who didn't want to help me. And his reaction was minor~~ly~~ compared to this. I've had to help other guy's & other guy's have had to help me. But we never started shit. When me & the guy I was helping were done I fucking left. Fatass can put those fucking can's away his fucking self. See how he like's it when no one fucking help's. Also the guy I was helping left to. I guess he was following my lead. [redacted]" told me I should do tape up's. I found a tape gun on the loading dock. As I jumped down the stair's I came W/ in feet of fatass. Fatass just nodded his head at me. I didn't acknowledge his fat ass.

DO MY BIDDING

Xhale city meltdown

A couple theories on why fatass threw in the towel & left me the fuck alone.

1 I was a tough opponent
2 When he was screaming at me he was on the other side of the trailer but when I got in range he didn't want to get smashed
3 He's not so tough without back up, LOL fucking pussy
4 He's seniority benefit's all that bullshit would go down the toilet over some petty shit
5 I'm not going anywhere so he de-escalated before it got any worse & he didn't want to put up w/ my shit every fucking day.

As for assface IF he know's what's good for him he'll do the same. Or I'll run that loser out of town.

One last thing. That fucking chimichanga who think's we're best friend's. This fucking loser held the door for me even though I was like 40 feet away. He then got pissed off when I didn't go. Stupid motherfucker. Who the fuck does that.

Today I went to another Rival's concert, I saw Josh By the entrance big as life. Josh had to Play 2 Sets. He told me IF I was going to be able to stick around for both, I told him probably not since I had work in the morning. I did end up staying until the place closed, I told Josh good luck tonight. I didn't know that he was in the middle of a face time or a skype call, Until I saw his phone & I told him to break a leg.

I did end up staying until the place closed. I told Josh I'll just call in sick (I still went to work LOL). It must have meant a lot because at the merch stand he told me wait right there, After what seemed like 10 minute's he came back w/ a drum stick. He autographed it & then he made the rest of his band autograph it. He was also wearing the same shirt when we 1st met. I hung out w/ sebistian outside. He told me the band was working on a new album due in Spring. I told him to tell me about it but he said "well I'm not at libertiy to say".

The place was dead after 1am. That's 1 thing I hate about the Tree's. There's no room to mosh, I told Josh that Elvis has left the building, I reached out for a handshake but Josh hugged me instead. I normally hate hugging but that was really one of those bromance moment's (no homo), I can't believe Josh recognized my Dragon Ball Z Shirt.

I order a Lyft & called it a night. My Lyft was a cool white girl & not some disgusting foreigner.

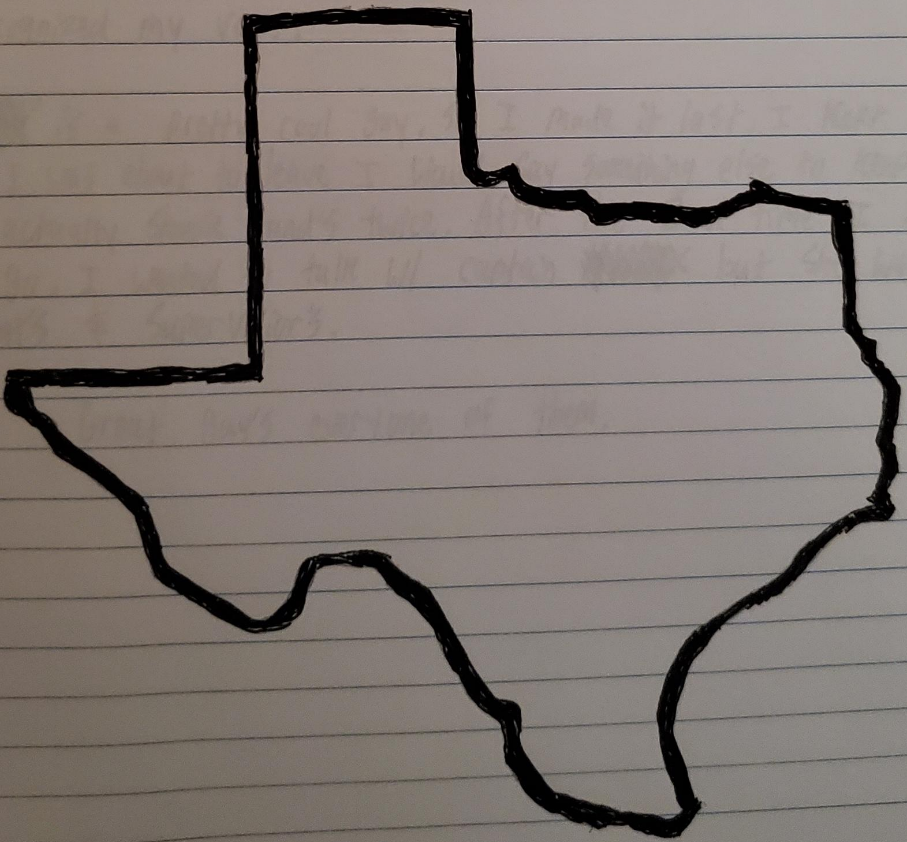
August Mon 19 2019

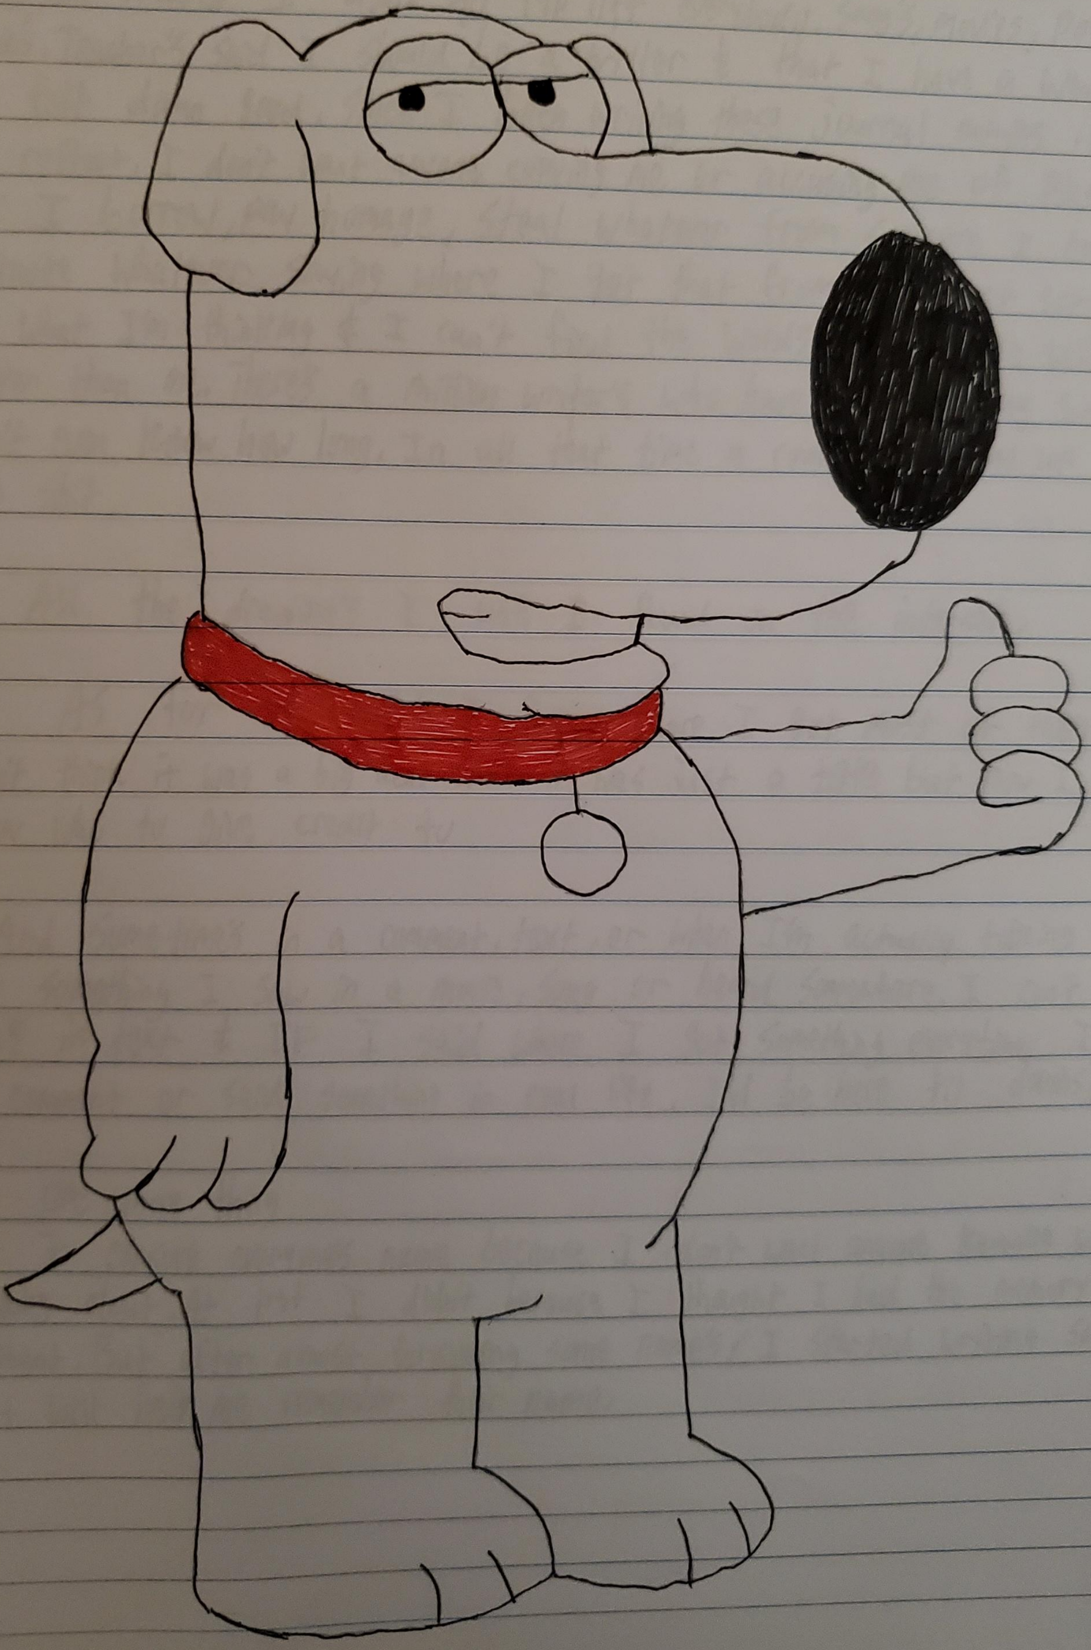


I quit my job at [redacted] [redacted] today, Hopefully for the last time, I stopped by Tom Thumb for a going away present, I bought a 20 dollar chocolate cake, Can't go wrong W/ chocolate, Then I drove to [redacted], It was pretty funny A supervisior was entering the office as I was, She must have thought I was ~~[illegible]~~ delivering something because she told me to wait outside, I was like oh no You don't, I talked to chief [redacted]. We took a picture W/ the cake, I started telling [redacted] about my plan's for the future, [redacted] gave me advice & wished me luck & everything, I was at [redacted] A little over 2 Year's W/ a 3 month gap in between.

One thing that blew my mind was when I reapplied again they knew it was me, I asked them how'd they know it was me. They recognized my voice.

[redacted] is a pretty cool guy, so I made it last, I kept stalling, Everytime I was about to leave I would say something else to keep from going, We actually shook hand's twice, After the 2nd time I really had to go, I wanted to talk W/ captain [redacted] but she was busy W/ client's & supervisior's.

Great guy's everyone of them.



Plagiarism

Here's my 2 cent's on Plagiarism, I think it's wrong, when I was in grade school I used to rip off everybody. song's, movies, poem's, & book's. Teacher's said I should be a writer & that I have a way w/ word's. I felt damn good. Since I been writing these journal entries it's made me reflect, I don't want anyone copying me or accusing me of Plagiarism. If I borrow, pay homage, steal whatever from someone I have a citation, footnote whatever saying where I got that from, It's just someone will say what I'm thinking & I can't find the word's, or someone will say it better than me. There's a million writer's who have been writing since I don't even know how long, In all that time a couple have come up w/ the same shit,

All the drawing's I use I found on the internet.

As for the title's, I forgot where I got most of them from, I didn't think it was a big deal since it was just a title but now I wish I knew who to give credit to

And some time's in a comment, text, or when I'm actually talking I'll say something I saw in a movie, song or heard somewhere. I can't include link's in text & If I said where I got something everytime I made a comment or said something in real life, I'd be here til doomsday,

One more thing
I censure everyone's name because I don't want anyone knowing who I'm talking about. At first I didn't because I thought I had the memory of an elephant, But after almost forgetting some name's, I started writing something that will help me remember their name.

I'M SORRY

2nd chance's. Troll's remorse. Sometime's it's hard not to feel bad about the bad shit I do

I said, wrote whatever that I would never show kindness to terrorist. Since then I've had some good encounter's w/ middle eastern people. While on assignment I've had arab & Indian people come up to me talking nice. I don't know IF it's because I was in uniform or because they really dig hispanic's. But they were acting really cool toward's me. A lot of them held door's open for me. ~~A~~ A lot of them waved at me.

But the one that stick's out the most is this indian guy at Lifetime. This guy pronounced my name right the 1rst time. For like 2 month's this guy would alway's greet me when I would go to the gym. I would never say shit. And then one day he saw me talking to the manager on duty. And that was probably the 1rst time he heard my voice. He must have felt like shit. I know what it's like to be ignored & it's not a very good feeling. The look on his face was just like damn. When it's happened to me I felt worthless.

He must have been thinking why is [redacted] worth talking to but not me. After that he stopped greeting me. How could I do that to such a nice guy. I was pissed off at a few bad apple's & instead of just hating those loser's I hated them all. Even the good one's. The next time a muslim or Indian is nice to me. I'm going to be nice back. It's just that some of these loser's got me so fucking pissed off. I just hope when I greet him he greet's me back.

Since arab's, indian's & muslim's are giving me a chance I'm going to give them a chance.

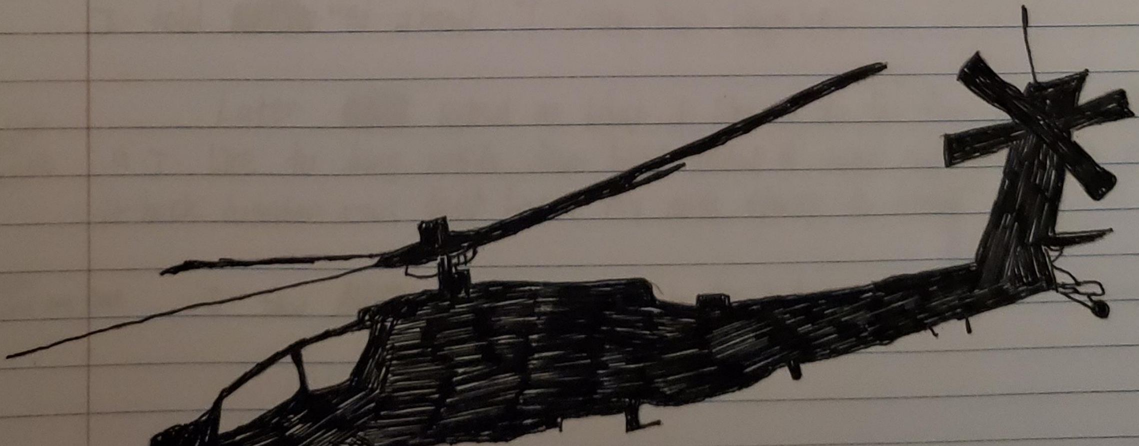
August 21 Wedn 2019



Today in the morning [redacted] gave a little pep talk. I was busy doing something else, [redacted] told me "You missed my pep talk." I said "Sorry about that". "It's ok".

Sometime later I was unloading this fucking trailer. I was halfway through when a fucking package from the very top fell. It fell hard & when it hit the ground it started leaking. It was like when a soda can hit's the ground & it look's like someone got shot in the [illegible] jugular or some major artery or vein. I didn't think it was a big deal since it happen's all the time.

But whatever was in their stank like a moldy burrito & it made me fucking cough. I told [redacted] "there's a leaker in door whatever. [redacted] that stuff smell's like shit. You might want to tell them to get their gas mask." [redacted] wanted me to go back in there but I said "No way, man".

There was a big pile of little hazardous irreg's. I had them piled on the chute. I started throwing them on the belt. [redacted] came by & needed to get through. She wanted me to finish but it was a huge stack. So I told [redacted] "go ahead. I saw her laughing.

Major payne

Later [redacted] asked me what I like to do for fun. I told [redacted] "I like to hang upside down blind folded & take my gun apart & put it back together real fast before my nose start's to bleed."

Belly seal my fare

I saw [redacted] laughing. I'd like to see it happen. I hope it's true.

August 27 Tues 2019

I was pushing a cart full of heavy ass package's, [redacted] see's me & we started chatting, I wish I could remember what I said or did, I had my hand's on the cart handle's. [redacted] held my hand, And then my mind went blank, It was like that scene in fight club when Edward & Bob hug. I had a stiffy like you wouldn't believe, I must have listened to that song "put your hand's on my shoulder" by Good charollet a 100 time's that day,

September 6 Tues 2019

~~1~~ 1 thing I couldn't believe was [redacted] said "Tell [redacted] Nicholcarlini what you like to do for fun, [redacted] actually told [redacted] about the whole hanging upside down thing,

I remember 1 time I'm scared [redacted] face off pulled me from unloading & put me w/ [redacted] Resident Evil Code I was w/ her like 10 minute's before ~~I~~ It's [redacted] Godzilla pulled me, [redacted] was pissed, She call's [redacted] & [redacted] send's me back to the unload. I remember telling [redacted] Hill & she summed it up nicely, IF she can't have you no one can,

I found out [redacted] asked about me I can't believe [redacted] asked for me, It was like that scene in Snow White, You do care,

I got into it w/ this lady who'll call glasses. It started w/ small shit. I was in sorting.

Rancid clockwork orange It was a downward situation & it stank like a bum.

All the slide's & cage's were full & there was still an hour, hour & a half before loading would get there. And to top it all off there' was still some pallet's that needed to be unloaded. This guy said what a fucking mess. So [redacted] Residant Evil Code told me to move these heavy ass boxes that were on the slide on to a pallet. There were so many package's that I couldn't get to them. So I pulled the boxes from the top of sorting. Glasses say's "the cage's are full". I'm like "k sweet".

So then after like the 3rd box glasses is starting to get pissed. glasses tell's me to get the boxes off the slide. I told her the slide is full. Glasses say's "clear it". I said "there's no one to clear it", glasses say's that's [redacted] problem, I just started climbing the slide & throwing the fucking package's down. Unloading start's & sorting & loader's get overwhelmed. There's no room in the cage's. The roller's are full & [redacted] is screaming at me to clear that shit, There's a point where the cat walk cut's off. Instead of waiting for the next cage I just toss that shit,

Glasses see's me & tell's me I'm going to hurt my back. Glasses ask me my age & goes on about how she has 19 year's experience & then she ask 2 other guy's who have even more experience. I told glasses
"What IF I don't live that long". glasses say's "You'll outlive me".
The writing on the wall, I was kidding but I wasn't

The heat get's turned on & glasses tell's me I should know better. I tell glasses

cruel Intention's "I'm old enough to know better but too young to care."

Her boy toy start's laughing & glasses demeanor changes. glasses was speaking softly but sternly but this time glasses was getting fucking mad as hell. glasses tell's me about how their on the safety committee & crap, Later glasses see's me grab a package by the strap's. I throw that fucking package in a cage, glasses say's not to do that, take's the fucking package & throw's it down the fucking slide. I tell glasses "Are you fucking kidding me. You know how fucking pissed off [redacted] is going to be that You sent that shit down just because I grabbed it by the strap's". Some time passes & the same fucking package come's up & just as I was going to grab it by the strap's I remember glasses getting all mad at me.

As I threw it in the cage I told glasses I did not grab that fucking package by the strap's. glasses say's did I say anything. I told glasses

Blue Streak "It's like that".

glasses say's (I'm paraphrasing here) I can make your life hell or pleasant. I was going to say

Ace ventura I'm not quite ready for a relationship but thank's for asking.

that would be like saying it to some cat lady, so I said fuck it I'm not saying it. glasses said I could get you fired. glasses sure like's to use that "You should know better" line, Holy shit You sound like a broken record. She also kept saying "[redacted] is not your supervisior" Neither is she so shut the fuck up, [redacted] is not even the one who told me to get those heavy ass boxes from the top, I did that on my own.

For FUCK'S SAKE even [redacted] sided w/ me & she is the bane of my existence. [redacted] told me glasses has threaten to fire everyone.

I finally said fuck this shit & I told [redacted] I couldn't deal W/ that bitch. I can put up W/ [redacted] & [redacted] bullshit all day. But glasses is something else. Me [redacted] & [redacted] have our moment's but I'm not feeling glasses.

As the shift was wrapping up. I saw [redacted], Hate [redacted] was dressed to the nine's. I know I saw a suit like that at Men's Warehouse. I was calling him from a penske truck. [redacted] started looking around. Unlike other time's, this time we shook hand's.

S: SO end's another day at UPS.

UPdate

So the next day [redacted] told me that back & forth between me & glasses was brought up in a meeting. Man would I have loved to be the fly on the wall at that fucking meeting. They probably told glasses You can't go around threatoing to fire mother fuckers. The turn over rate is already like 80% now this loser want's to fire the little amount of people that stay on

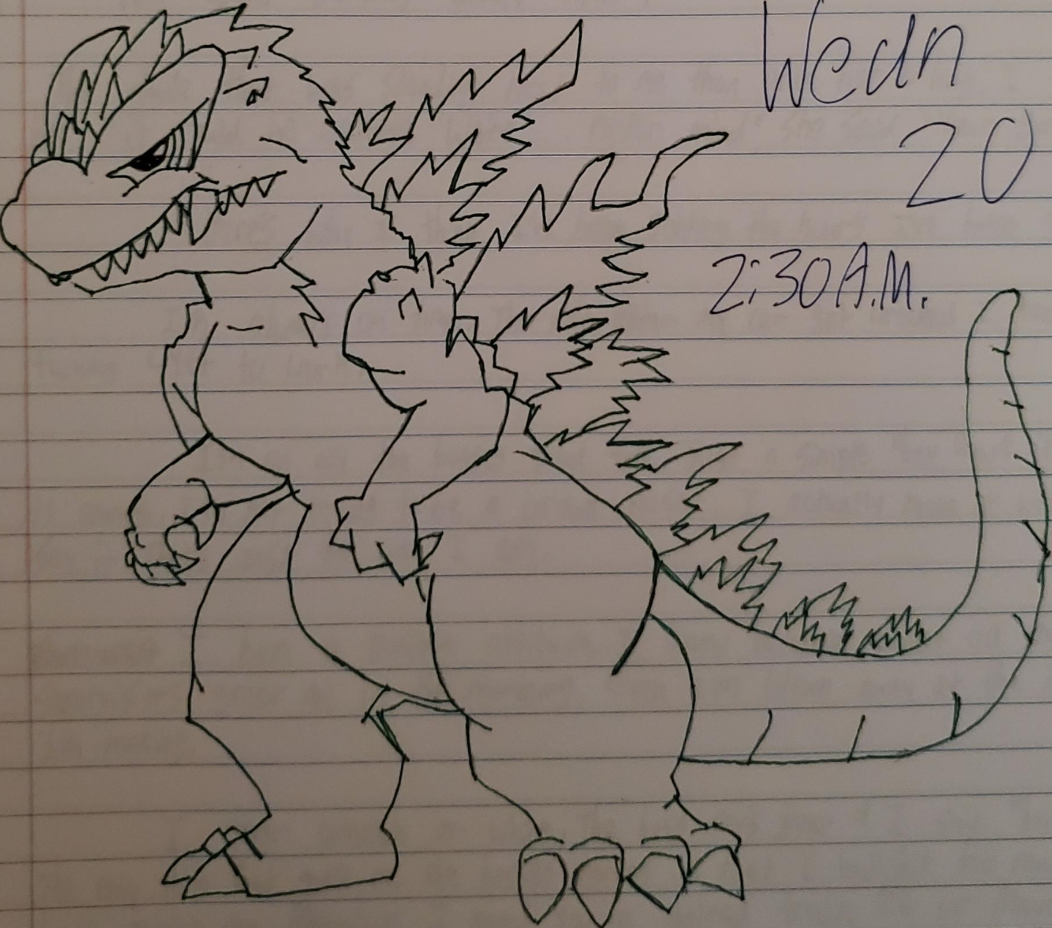
2:30 A.M.



For the past week I've been coming to work at 2 or 2:30 in the morning. And I've been leaving around 9 or when ever the fucking truck's are ready. I'm getting 2 hours of overtime everyday. Anyway's this lady start's talking to me, she ask me when did I clock in. I said 2. This other dude show's up & she ask him the same thing. The dude also says 2. Lady goes on about how were both coming in early, she's been here long enough to be a union steward, she said "I want to cry". I thought she was kidding until big crocodile tear's started coming out, I even said ~~[illegible]~~

My cousin Vinny "You were serious about that".

The dude that was standing next to me than gave her a hug. I then told her "it could be because we're... never mind". She said "Your guy's". Shit

Here's why I think I've been getting the hour's I've been getting.

I'm alway's on time. The day after my car got wrecked I took a fucking LYFT to work.

I'm on all the busses good side. Just a simple "hey how's it going" is enough. I'm not trying to be a brown noser. I actually mean it when I say it. That's just the way I am.

~~[illegible]~~ I have a positive attitude.. I know because almost all the supervisior's greet me in the morining. Even I'm blown away at the impression I'm making.

I never complain or whine. The boss say's jump & I say "how high?" The only thing that get's on the bosses nerve's is that I bullshit too much. The boss might say Mauricio I need you to unload truck 26 or Mauricio take these fucking package's to the return's. And I'll say "Can I do it tomorrow?" They'll either say something like "don't start w/ me" or they'll give me that I'm about to hit you in the face look.

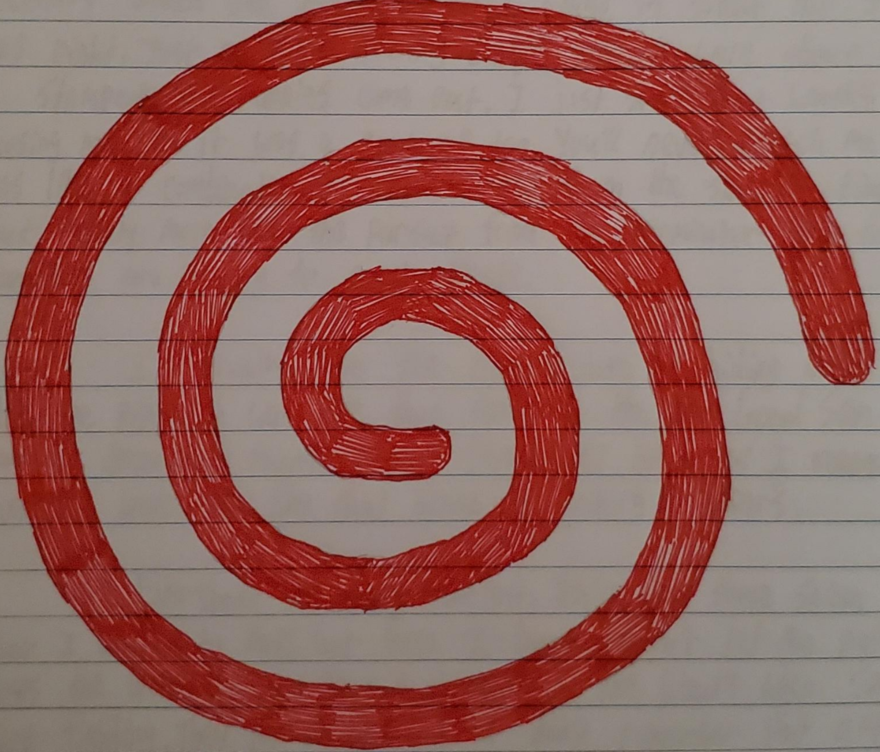
Nightmare Fuel



Dreamcast

I like it when I dream, IF I don't write it down when I wake up I'll forget it, It's like I'm in a movie while I'm sleeping. I like every dream, Even IF it's a bad dream,

The nightmare's just keep coming.

I dreamt that I was getting arrested in Fort Worth. The scenery looked like the Silent HiLL stage in Silent Hill 3, Except it was night. Just as these fucking badge nigger's were about to cuff me a stampede of puppies came out. I just split, Fort Worth's finest start chasing me like it was a game of tag, You'll never catch me losers, It was like a combination of chase scene's from the Sandlot, Final Destination, But mainly more like the pursuit from The Terminator when these donut muncher's are trying to catch Reese,

I finally lose the cherry top's by hiding in a concrete drainage pipe, It was like that scene in the ~~goo~~ Good Son, I make my way to America's favorite Diner Denny's, As soon as I ~~everyone~~ enter everyone look's up like that scene in Jeeper's creeper's,

Everybody was eating breakfast. They're were these saloon looking door's that I wanted to pass but these 2 guy's wouldn't let me pass. I give these guy's the look, It was like that scene in The Wood's when Samantha & Heather start fighting, They let me pass & I don't remember shit after that.

There was a time when I admired the Police. But after the way these loser's acted in Charlottesville & Berkeley, And even now shutting down lemonade stand's & killing defense less guy's in hotel's, Now everybody hate's You.

The only reason I applied for Fort Worth PD was so I could

I remember 1 time a friend of mine was cutting my hair. While he was cutting I was trying to make conversation. I was speaking so softly that he couldn't hear me, He kept saying What? Come again? Speak up & I can't hear You. That was back when I was a scared loser. Anyway's my friend start's to get pissed off. He told me IF Your not going to speak loudly & clearly just shut up.

Now I know how my friend felt because I'm going through the same shit. And I was talking to someone who was my friend & I didn't have the confidence to speak w/ authority. How pathetic was that?

I can't believe how many guy's have the same problem. I've had guy's in their 20's & 30's greet me like a fucking vagina. hi how you doing? Half the time I can barely make out what their saying, The other half I don't even know IF they're even talking me. They actually out do me. IF I look up or say something they fucking look away.

I almost feel sorry for the saps. Do they think I'm going to beat them up? And when I do say hi back they don't say anything, Which kinda defeat's the purpose. I've had girl's talk to me more assertively.

My excuse was I was an awkward social retard that was too timid to project his voice, My voice is high pitched & not very mature. But at least everyone around me understand's what the fuck I'm saying.

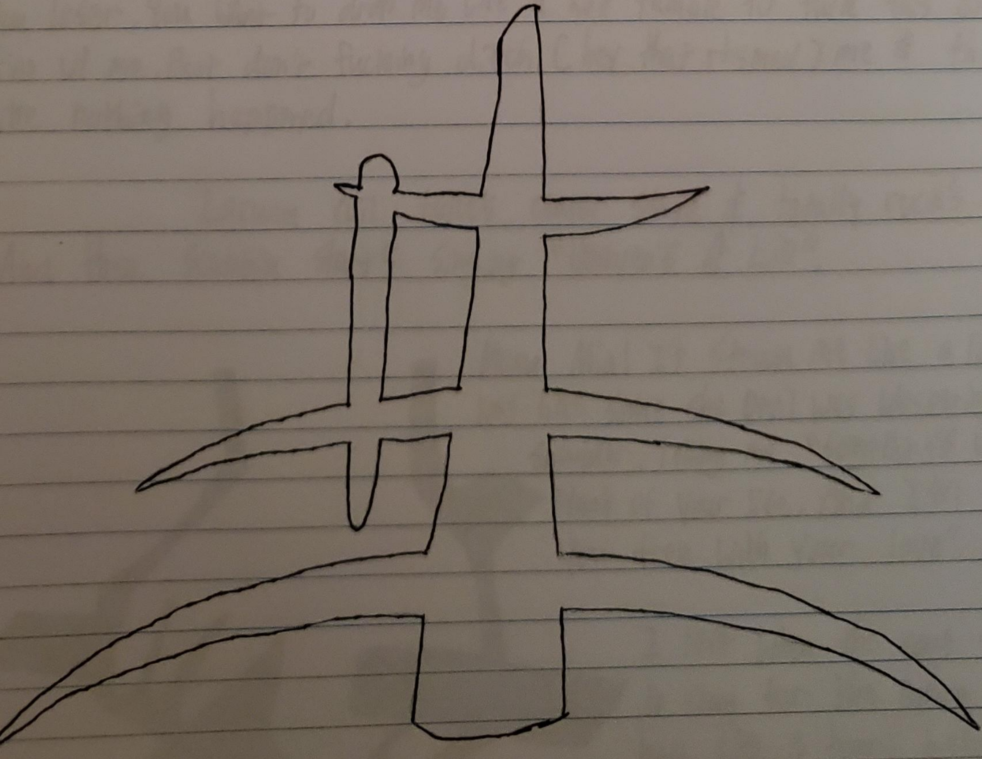
UNDER NIGHT IN-BIRTH

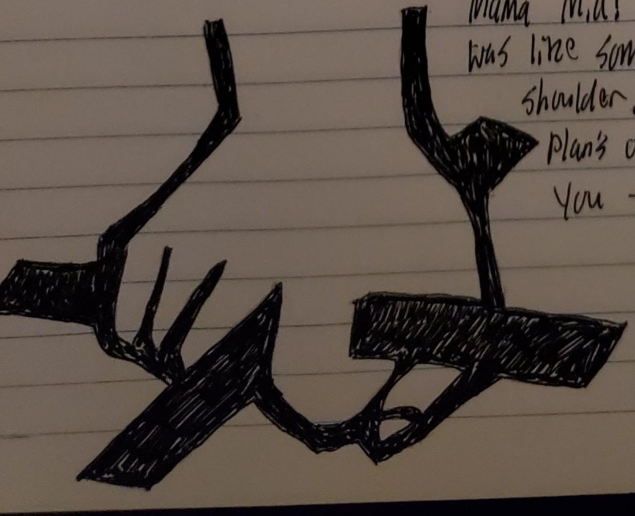


Lacuna coil was in town & I had VIP ticket's, so I met this guy while I was standing in line. We started talking about the show & the song's Lacuna coil was going to play. This chick start's talking to this fucking guy. The guy ignore's me & start's talking to the chick, I'm like alright fine whatever.

The door's open & I meet & greet the band. It was awesome as hell, I got an ~~autoghra~~ autograph & I got my picture taken w/ the band. I told Cristina "please tell me you're gonna play Entwine, Adriana said no. That's too bad because that's the song that got me into Lacuna coil. I can't believe how friendly they were, I thought they were going to say "here's you're shit now get the fuck out of my sight".

Later I was talking to [redacted] who was doing security. I hadn't ~~[illegible]~~ talk to him since the Hatebreed concert. Later that fucking loser I was talking to in line come's knocking. I don't know IF he didn't get w/ that bitch or what. But the fucking guy start's trying to talk to me. Now it's my turn to ghost you loser, You want to drop me like a hot tamale to fuck this bitch that's fine w/ me, But don't fucking ditch (hey that rhymed) me & then talk to me like nothing happened.

Lacuna coil take's center stage & totally rock's my world. And then Scabbia start's singing "Heaven's A Lie".



Mama Mia! It struck me like a lightning bolt. It was like some she devil was whispering from my shoulder, telling me "something's wrong with all the plan's of your life. And I'm going to set you free with your love". ~~A~~

I left when the song finished, I wanted to stay for the entire set but I had like 3 hour's before I had to be at work.

~~Lat~~ Later that night I touched myself while thinking about Cristina.

I love You So Much Cristina
